Serial No.

1 From the Govt of Agriculture
No 1175- Budget- 20 of 32-33 dated 6/12/32

Request Ack copies of letters dated 5th and 17th Nov 1932 from the Officer-in-charge, Serum Institute containing proposals for revision of establishment of the Institute and requests, in the circumstances explained,

(1) that the Serum Institute may be made permanent,

(2) that Mr. S D Achar may be appointed as Superintendent of the Institute and given a status and grade on a par with those of the Superintt, C.V.D., against the vacancy of Rs 400-30-700, the grade of his predecessor, the post of the Asst Superintt being kept in abeyance for the present,

(3) that the scales of pay of the ministerial staff, labouring attendants, salaries and other lower subordinates may be revised, and

(4) that the post of mechanic in the Institute may be permanently absorbed in the regular scale of establishment of the Serum Institute

I invited with reference the proposal of the Govt to reorganize the estt of the C.V.Ds was considered in view of the present financial condition.

2. Govt order dated 7/2/31 it was

Returned with compliments.

2. The proposition statement is verified with the following remarks:-

(1) The post of Officer in charge, Serum Institute is kept vacant until further orders (Vide G.O.No.D.7580-P.H.83-31-5 dated 22nd March 1932).

(2)

(2) The Salustry of "Virus Section" is not in receipt of a conveyance allowance of Rs.5/- as shown in the "present scale of the proposition statement". With the reduction in the present cost on account of the above mentioned two items the extra cost involved in the proposition is Rs.7,417/- per annum, as against Rs.357/- shown in the proposition statement.

II) I do not think it is any longer necessary to consider the Serum Institute as a temporary institution. It has done very good work so far and more work of an important nature is before it. There is need for continuing the Institute without any limit of time and it may, therefore, be declared to be a permanent institution.

III) As regards the revision of establishment, I think the Director's proposals may be modified as under:-

Mr. S.D.Achar has proved a competent substitute in place of Dr. Parthasarathi and he may be given the grade of Rs 300-50/2-400. The Director has proposed for him Rs 300-25-500, the same as that allowed to the Superintendent, Civil Veterinary Department. I think

the

Serial No.

the salary of the Superintendent of the Serum Institute may be slightly less than that of the Superintendent of the Veterinary Department. The rate of increment may be Rs 50 in two years instead of Rs 25/- each year. Mr. Achar is now in receipt of a pay of Rs 190 plus a Duty Allowance of Rs 75/-, and in June next, his pay would be raised to Rs 200/-. With the allowance he may be taken as in receipt of Rs 275/- and he may, therefore, be started on Rs 300/- the minimum pay of the proposed appointment. No Duty Allowance need be paid from the date his pay is thus enhanced.

13 The Director does not propose to fill up the place of the Asst. Superintendent on Rs 150-10-200. This post may, therefore, be omitted in the proposed scale.

14 For the clerical and lower technical staff, incremental rates of pay have been proposed. It has been found inconvenient to allow progressive scales and fixed rates of pay may be adopted as under:-

Name of post.	Present pay.	Incremental pay suggested by the Director.	Fixed pay proposed.	Remarks.
	Rs	Rs	Rs	
Head Clerk ..	55	50-5 -80	65	
Head Accountant	50	50-5- 75	60	
Clerks (2) ..	40 each	30-5/2-50	45	
,, (2) ..	30 ,,	30-5/2-50	35	The Director has proposed an additional clerk on Rs 30-5/2-50. In view of the increased work of

Contn. Sheet.

WD 70—GBPM—60,000—13-8-31.

the Institute, this additional hand may be given and the pay may be fixed at Rs 35/-

Salustries.(11)	30 each.	25-3/2-40	35 each.
Laborary Attendants (2)	30 ,,	25-3/2-40	35 ,,
Serum Room Attendant	30	25-3/2-40	35
Media Man	30	25-3/2-40	35
Carpenter	30	25-3/2-40	30
Packer	20	20-1-25	20

15 There is need for a Mechanic as explained by the Director and a place on Rs 45/- may be included in the scale as suggested by him. There is already a Mechanic on wages of a rupee and a half a day.

16 The Director's recommendation in regard to the pay of Mestri and Cattlemen may be accepted.

17 Under the procedure now adopted, the Institute supplies sera and vaccines of different kinds to the Civil Veterinary Department and their cost is not charged to the latter. This arrangement understates the expenditure of the Civil Veterinary Department and the revenue of the Serum Institute. I think the Institute should get credit for the supplies it makes to the Department and the latter should include their cost in its budget. The Director's views on this suggestion may be ascertained. This point may be taken up separately.

18 The case may now be referred to the Financial Secretary.

H: 5408-32B

Staff

In view of the financial position I would respectfully suggest that the Institute may be continued on the present temporary basis for some time longer.

2) The scale proposed by the Director is defective in that it proposes scales with a minimum going down to a smaller figure than the last drawn at present. This is a device adopted to show the cost at a smaller figure and ~~is~~ a scale of this kind would not be financially acceptable.

2) The scale proposed by the Member involves extra cost amounting to over Rs 2500 p.a. and this extra recurring exp: is unacceptable financially when the ~~deficit shows~~ a large deficit is ~~likely~~ expected this year and next year.

2) When the establishment is made permanent, it is a matter for consideration whether the permanent post on higher pay of Superintendent should be given to the S.D. Asstt or it should be given to any of the other Asstt Superintendents of the Vety dept who ~~are all of the same grade as the Asstt~~ may be senior most. The posts of Asstt Supdt Serum Institute and Asstt Superintendents of Civil Vety dept ~~are~~ are all in the same

Final Note by the First Member of Council.

Subject:—

Revision of the Establishment of the Serum Institute.

The Serum Institute has so far been treated as a temporary institution and its term is being extended from time to time. The Institute has fulfilled all the expectations formed when it was started. The sera and vaccines manufactured by it, are required by our Veterinary Department every year and they are also being sold to some other States. The Institution may, in these circumstances, be treated as permanent. Mr. S.D.Achar who underwent a special course of training at Muktesar in making sera and vaccines along with Dr. Parthasarathi - the First Superintendent of the Institute since transferred as the Health Officer of the Bangalore City - has been efficiently managing the Institute and it is proposed to confirm him as the Superintendent.

The Director recommends that Mr. Achar may be placed in the grade of Rs 300-25-500 and that the post of Assistant Superintendent on Rs 150-10-200 now held by him, may be left unfilled for the present. The Director has also suggested incremental rates of pay to the staff, analogus to those obtaining in other branches of the Agricultural Department.

The proposals of the Director involve an extra cost of Rs 7,417 per annum. It is necessary to reduce this cost and the rates of pay to the clerical and other staff may be fixed and not made incremental. It is proposed to allow to Mr.Achar as Superintendent a pay of Rs 300-50/2-400 instead of Rs 300-25/1-500 recommended by the Director and to the clerical and other staff, the fixed rates of pay suggested in my note dated 13th February

Paras 14 & 19 of Office notes.

1933. The extra cost, as revised, will amount to Rs 2,400 per annum and the Dewan and the Second Member of Council are agreeable to the revision of this Establishment with the modifications suggested in the said note.

I beg that this proposal may be graciously sanctioned.

Bangalore,
22nd March 1933.

FROM

LESLIE C. COLEMAN, ESQ., M.A., PH.D., C.I.E.,
DIRECTOR OF AGRICULTURE IN MYSORE,
BANGALORE.

DEVELOPMENT SECRETARIAT
8 DEC

To

S. Abdul Wajid, Esq, B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

In forwarding herewith copies of letters No.2020 dated 5th November 1932 and No.2261 dated 17th November 1932 received ffom the Officer-in-charge, Serum Institute, Bangalore, containing -- proposals for revision of establishment of the Institute, I have the honor to state as follows:-

1. On my representation regarding the importance of making the Serum Institute permanent, Government were pleased to defer this question till the end of June 1933 in their order No. D. 8194-5 C.V. 33-30-6 dated 7th February 1931. But as the budget for 33-34 will be framed on sanctions received upto the end of January as per standing orders, I request that Government may be pleased to consider this long pending question now alone and communicate their orders making the Institute ~~xxxxxxx~~ permanent more especially inview of the fact that the importance of the Institute has now been well established.

2. The officer in charge, Serum Institute has very -- heavy responsibilities. The present officer, Mr. Achar, has maintained the good name and efficiency the Institute had attained under his predecessor Dr. P. Parthasarathy. ~~Chetty~~ The sales of the Biological products, manufactured in the Institut have increased very greatly as can be seen from the accompanying statement. I, therefore feel strongly that Mr. Achar should be appointed Superintendent of the Institute and given a status and

-2-

and grade on a par with those of the Superintendent of the Civil Veterinary Department ~~as~~ against the vacancy of Rs.400-30-700, the grade of his predecessor. This will result in the release of the post of the Assistant Superintendent which I do not propose to fill up for the present.

3. The revised scales of pay proposed in the case of the ~~xxxxxx~~ ministerial staff are analagous to those of ~~similar~~ posts in other branches of the department and may kindly be sanctioned.

4. The grade pay proposed for the laboratory attendants and salustries here are the same as those recommended for salustries in the Civil Veterinary Department in my letter No. Roc. 908 Est.280 of 32-33 dated 22nd November 1932 and I consider should stand.

5. The small increases of pay proposed to other lower subordinates are, I consider, reasonable and may be viewed sympathecally.

6. The importance of the post of mechanic in the Institute has been sufficiently stressed and under these circumstances the post may be permanently absorbed in the regular scale of establishment of the Serum Insitute.

7. The other proposals contained in the letters of the officer are self explanatory and do not call for any remarks. I have gone into these details carefully and strongly recommend that Government may be pleased to ~~x~~ sanction the above proposals early.

The proposition statement (in duplicate) showing the effect of the proposed revision is herewith forwarded.

I have the honor to be,
Sir,
Your most obedient servant,

blm.

Director of Agriculture.

Copy of letter No.2261 dated 17th November 1932 from the Officer in charge, Mysore Serum Institute, Hebbal, to the Director of Agriculture in Mysore, Bangalore.

I beg leave to submit the following facts for favour of your kind consideration.

I took charge of the Serum Institute on the afternoon of 7th April 1932. Government in their No.D.5944-34 C. V. 68-31-2 dated 20-5-1932 placing me in charge of the Institute, were pleased to grant me an allowance of Rs.75/- per mensem against the sanctioned post of Rs.400-30-700.

I beg leave to submit that ever since I have been placed in charge of the Institute, I have always attempted to discharge my duties conscientiously and intelligently to the entire satisfaction of my superiors and I have tried to maintain the prestige of the Institute in and outside the State in all respects and I believe not without considerable success.

Besides Anti-Rinderpest Serum and Rinderpest Virus in quantities more than sufficient to meet the local and outside demands for them, other biological products such as, Black-quarter Filtrate and Serum, H.S. Vaccine and Serum and Sheep-pox Vaccine have been manufactured on a far more extensive scale.

For the first time H.S. Vaccine was supplied to Baroda in August 1932 and H.S. Serum and B.Q. Filtrate to Hyderabad, and indents for these products as well as for Rinderpest Serum and Virus are being received increasingly and met with. These have earned a high reputation in and outside the State as can be evidenced by the repeated indents that are being received from Hyderabad, Baroda, Coorg, etc., for these products.

The Institute has been from the beginning a source of Revenue to the State in addition to the immense service it

has rendered for the control of epidemics among cattle and sheep in the State. The expenditure for the upkeep of the Institute including the Establishment is considerably less than the value of the products prepared in the Institute.

Statements are enclosed showing the quantities of sera and vaccines produced and issued to the Civil Veterinary Department and to places outside the State ever since I was appointed Officer in charge of the Serum Institute and the amount of the sales effected, with corresponding statistical figures for the same period during previous year for favour of your information in this connection.

The work and responsibility attached to the Office of the Officer in charge of the Institute are, as you are no doubt aware, heavy enough and I have earnestly endeavoured to raise the efficiency already achieved, in my own humble way. Experiments in connection with preparation of Goat Virus for Rinderpest, Blackquarter Bacterin and Anthrax Serum have also been started the results of which are so far hopeful and satisfactory. From the expenditure point of view also, I have taken all possible precautions to keep the cost of maintenance of the Institute within reasonable limits, especially in view of the prevailing financial conditions in the State.

After graduating from the Bombay Veterinary College in the year 1908 I served in the Military Department for nearly 8 years and was then transferred to the Civil Veterinary Department where I was on District work for about 10 years. In 1925 I was sent to Lahore for a Post Graduate course in the Punjab Veterinary College and underwent an intensive training both in theory and practice in Zoology, Pathology and Parasitology and passed in all the examinations. On my return from Lahore I was put in charge of Rinderpest

virus depot where I worked till April 1927. I was then deputed by the Government to learn the manufacture of Biological products in the Imperial Institute of Veterinary Research, Muktesar. After completing the course in these several branches of higher Veterinary training, I was working in the Mysore Serum Institute as Veterinary Assistant Superintendent ever since the Institute was started till April 32 when I was promoted as Officer in charge.

My place as Officer in charge of this Institute is analogous with those of the Vaccine Institute and Health Institute and considering the highly scientific and arduous nature of the work entrusted to me and the heavy responsibilities shouldered by me I would submit that the salary given to me cannot be considered, by any means, adequate whereas on the other hand, it may considered meagre when compared with the salary drawn by my predecessor in the grade of 400-30-700. In this connection I may also be permitted to bring to your kind notice that the Superintendent of the Serum Institute, which was recently opened in Madras, is drawing about Rs.750/-. I believe that it will not be out of place to suggest that a large Institute like this should have an Officer of sufficient pay and status to keep up a contemporaneous relationship with similar Institutions in and outside the State.

Further, the several sectional Officers of the Agricultural Department proper have been almost in the scale rising to Rs.700/- in the ordinary course, and I would respectfully submit that the nature of my work as the Head of this Institute is equally arduous and involves great responsibility. I pray for a kind and generous consideration of the facts mentioned above and for a strong and favourable recommendation to the Government to fix me up in the regular vacancy caused by the transfer of my predecessor in office.

Finally I may add that this arrangement will not involve any extra cost to the Government as the post is available and not one to be newly proposed.

- C o p y -

Director of Agriculture

Copy of letter No.2020 dated 4/5th November 1932 from the Officer in charge, Mysore Serum Institute, Hebbal, to the Director of Agriculture in Mysore, Bangalore.

With reference to your letter No.C.769 of 32-33 dated 29-9-32, regarding the submission of proposals for revision of establishment or the continuance of existing temporary establishment and allowances for the year 1933-34, I have the honour to submit herewith, proposals for revision of the ministerial and the lower subordinate establishment for favour of consideration.

Government have in their order No.D.8194-5/C.V. 33-30-6 dated 7-2-1931, been pleased to extend the term of the Serum Institute and its establishment for three years from 1930-31 stating at the same time that the question of making it permanent would be considered at the end of June 1933. In this connection, I may be permitted to state that for the past 5 years the work in the Institute has progressed in every direction. The enclosed statement will show the total quantities and cost of the biological products prepared in the Institute during the last 5 years.

In additior to meeting the demands of the Civil Veterinary Department in Mysore, indents from outside the State for the supply of biological products of the Institute are on the increase and are duly met with. The cost of all the products supplied to the Civil Veterinary Department and to places outside the State at the rates approved by Government, together with the amount realised by the sale of done animals, carcasses manure etc., and the cost of the stock of all the products and animals remaining at the beginning of the current year amounted to Rs.2,04,000/- against an expenditure of Rs.1,04,939/- for the year 1931-32.

The sales of products alone, to places outside the State, for the four months ending 31st October 1932 works out to Rs.24,338-4-0 as against Rs.7630-12-4 for the same period during last year. As it has been serving a very useful purpose by preparing on a very large scale, sera, vaccines etc., for supply within the State as well as for sale to places outside Mysore for the control of epizootic diseases among cattle and sheep besides being a source of good revenue to the State, it appears to me that it is high time to take up the question of making the Institute permanent. Under the circumstances, I request that Government may be kindly addressed in the matter of making the Institute permanent at an early date.

While proposing the revision of the scale of pay of the ministerial establishment it is needless to state that an important Institution like this should be provided with a strong and contented clerical staff as they have to be dealing with bills involving large sums of money and cheques on account of purchase of materials and the sale of done animals and the products and accounting for large quantities of costly materials. They have, in addition, to attend to correspondence and transactions with other Governments besides watching recoveries on the credit bills preferred from the Institute for the sales effected.

The statement furnished below will show the number of inward and outward correspondence that has been attended to, the number of bills received and the increased transactions on account of sales of sera, vaccines and virus and also animals etc., year by year.

Within 4 months during the current year sales of sera and "done" animals etc., to the extent of Rs.25,856-10-0 have been effected as against Rs.10,201-0-4 for the same period during the previous year. Further, on account of the increasingly frequent sale of products to places outside the State and on account of the direct supply of all products undertaken from the beginning of this year to the Veterinary Inspectors of the State, more work has been thrown on the Office staff. The

circumstances that led to the undertaking of direct supply of sera and vaccines to the Veterinary Inspectors of the State from the Institute, are that consequent to the shifting of the Serum Institute to Hebbal, the Superintendent, Civil Veterinary Department expressed in his letter No.S.1599 of 31-32 dated 27-6-1932 that it would be very inconvenient to get the supply of products to his office for despatch to the various destinations in the State as it naturally involved a day's delay besides duplication of work and transmission of the same consignment and suggested that with effect from 1st July 1932 all the products may be despatched direct from the Serum Institute and empties received on indents and advises respectively from the Veterinary Inspectors. Considering the desirability and necessity of the proposal I accepted it and addressed the Director in the matter although it involved considerable work on the office staff. The Director in his letter No. Roc.3371/31-32 C.V. 6/32-33 has accordingly been pleased to approve of the arrangement allowing me at the same time to send up remedial proposals in the matter as the arrangement has not only thrown much additional work on the staff of the Institute but also involves greater expenditure under contingent allotment in the budget of the Institute on account of incidental charges such as packing cart hire etc.

Regular and accurate system of accounts have to be maintained and correct preparation of statistical statements and returns have become an almost daily necessity in the office. Considering all these, I request you therefore to be so good as to strongly recommend to Government that effect be given at an

early date to G.O.No.D.1622-30/C.V.11-29-4 dated 7-8-1930 sanctioning the appointment of a Clerk-typist on Rs.30/- and the enhancement of the pay of the Head Accountant to Rs.65/- and providing at the same time funds involved on the above account in the budget of the Institute for the year 1934-35 as these measures have been pending for 4 years past. Further, in view of the responsible work involved and the increase in every branch of work in the Institute, particularly of the "Accounts" portion the grade of pay of the Head Accountant has to be revised on a higher time scale grade at least to keep him on a par with the co-officials working in the other sections of the Agricultural Department under your kind control and I would recommend that the appointment to be one of Rs.50-5-80 with a starting pay of Rs.65/- to the present incumbant who may be designated as Head Clerk hereafter.

The present pay of all the clerks in the Institute is quite meagre and fixed and not commensurate with the responsible and increased work involved in the Institute, so much so, that it has been causing much discontentment among the staff. As the work expected of them is not in any way less than or inferior to that of the officials of the other sections of the Agricultural Department, if time scale appointments are sanctioned to them it will be an impetus to them to work contentedly and with more enthusiasm. I, therefore, propose that the scale of pay of the other clerks under different designations, excepting that of the Accountant, be revised to Rs.30-5/2-50 on a par with the grade in the Agricultural Department proper so as to admit of interchange of qualified hands whenever necessary. The post of the Accountant is designated as Head Accountant in the proposal with a grade of

Rs.50-5-75, as in the Divisional Establishment in the Agricultural Department.

The post of "Mechanic" on Rs.45/- with a C.A. of Rs.5/- has also been included as contemplated in your letter No.Roc.2799 Est. 640 of 31-32 dated 25-5-1932 to the Secretary to Government, Development Departments. In this connection, I have the honour to state that consequent to the shifting of the Serum Institute to its new buildings at Hebbal, a big refrigerating plant at a cost of Rs.12,000/- has been installed and is kept working continuously, a pumping plant and engine to lift and pump water from a distance of about a furlong has been installed and is to be kept working daily as and when necessary, electric power and lighting has been installed at a cost of about Rs.4,000/- and an autoclave run by electric appliances besides a small refrigerator and incubator have also been fixed up in the Laboratory, virus and Serum rooms. To attend to the ~~petty repairs which will be~~ continuous and satisfactory working of these plants and installations and to attend to the petty repairs which will be occuring off and on the services of an Engine Driver and Mechanic who has a good working knowledge of machines and electricity has become an absolute and urgent necessity. While submitting the budget of the Institute for the year 1932-33 the Director recommended an increase in the allotment under 'Contingencies" to meet the cost of employing on daily wages an Engine Driver and Mechanic. The Director in his letter No.Roc.2799 Est. 640 of 31-32 dated 25-5-1932 was pleased to sanction the appointment of a Mechanic temporarily on a daily wage of Rs.1-8-0 proposing at the same time for necessary provision in next year's budget for a permanent addition to the staff of the Institute by the appointment of a Mechanic and

Engine Driver. Government in their order No.D.853-4/C.V.92-31-4 dated 25-8-1932 have approved of the action of the Director in the matter. I have included accordingly the post of the mechanic in the enclosed proposition statement for favour of sanction as it will serve as an impetus to him to be borne under regular establishment like others.

The pay of Salustries and Laboratory Attendants in the Institute has been proposed on a grade of Rs.25-3/2-40 like that of the proposal in the Civil Veterinary Department, for Salustries.

While proposing different scales of pay to the cattlemen, I have to impress that the work of certain cattlemen in the Institute who have been trained for special work in Virus section, Serum section, sterilising room and in laboratory is of a risky and responsible nature. They have to put in long hours continuously and much depends on their working wholeheartedly and energetically. As such, they well deserve to be placed on the different scales of pay that I have proposed on the lines of the Dairy and Farm servants of the Hebbal Agricultural School, i.e., 6 cattlemen on Rs.15/- and 12 cattlemen on Rs.14/- and increase in pay to the maistry of Re.1/-. The extra cost on this account is Rs.25/- only per month. These different scales of pay will, I consider, do much to induce all the cattlemen to turn out better work as promotion to higher grades of pay will depend mainly on merit.

GENERAL AND REVENUE DEPARTMENTS.

G. O. No. D. 5392-3—C. V. 60-32-3, dated 27th April 1933.

Serum Institute.

Passes orders on the reorganisation of the ——.

READ—

Government Order No. D. 8194-5—C. V. 33-30-6, dated the 7th February 1931, extending the term of the Serum Institute and its establishment for three years more from 1930-31.

2. Government Order No. D. 5933-34—C. V. 68-31-2, dated the 20th May 1932, placing Mr. S. D. Achar in charge of the Serum Institute as a temporary measure.

3. Letter No. 1175 Budget 20 of 32-33, dated the 6th December 1932, from the Director of Agriculture in Mysore, proposing revision of establishment of the Serum Institute and recommending—

(1) that the Institute may be made permanent, in view of the fact that its importance has now been well established;

(2) that Mr. S. D. Achar, may be appointed as the Superintendent of the Institute on a graded pay of Rs. 300—25—500, the post of the Assistant Superintendent being kept vacant for the present;

(3) that the revised scales of pay as proposed by him to the establishment of the Institute, which are analogous to those of posts in other branches of the Agricultural Department, may be sanctioned; and

(4) that the post of the Mechanic may be permanently absorbed in the regular scale of establishment of the Institute.

ORDER No. D. 5392-3—C. V. 60-32-3, DATED BANGALORE, THE 27TH APRIL 1933.

Government agree with the Director that it is no longer necessary to treat the Serum Institute as temporary and are pleased to direct that it be made permanent.

As regards the revision of establishment, the Director's recommendations are sanctioned with the following modifications. The proposition statement as sanctioned is appended to this order.

(1) Mr. S. D. Achar is appointed as Superintendent of the Serum Institute on Rs. 300 per mensem in the grade of Rs. 300-50/2-400. The duty allowance now drawn by him will cease from the date from which his pay is raised.

(2) As it is not necessary to fill up the place of the Assistant Superintendent, it will be omitted.

(3) Fixed rates of pay for the clerical and subordinate technical staff of the Institute, in lieu of progressive scales proposed by the Director, will be allowed as under:—

Name of Post	Present Pay	Sanctioned Pay	Remarks
	Rs.	Rs.	
1. Head Clerk	55	65	
2. Head Accountant	50	60	
3. Clerks (2)	40 each	45	
4. Clerks (2)*	30 „	35	*The Director has proposed an additional clerk on Rs. 30-5/2—50. In view of the increased work of the Institute, this additional hand is given and the pay fixed at Rs. 35.
5. Salustries (11)	30 „	35	
6. Laboratory Attendants (2) ..	30 „	35	
7. Serum Room Attendent	30	35	
8. Media man	30	35	
9. Carpenter	30	30	
01. Packer	20	20	

As there is need for a Mechanic as explained by the Director, a place on Rs. 45 will be included in the regular scale of establishment of the Institute.

The Director's other proposals in regard to the pay of Mestri and Cattlemen are accepted.

This order will have effect from 1st April 1933.

S. ABDUL WAJID,
Secretary to Government,
Development Department.

To—The Director of Agriculture in Mysore.

No. D 5602 / CV. 60-32-4 Dated, Bangalore, 8th May 1933.

From

The *Secretary to the Government of His Highness the Maharaja of Mysore*
Development Department.

To

The Director of Agriculture in Mysore.

Sir,

In continuation of G.O. No. D. 5392-3/C.V. 60-32-3 dated 27th April 1933 sanctioning the revision of the establishment of the Serum Institute, I am directed to point out that under the procedure now adopted, the Serum Institute supplies sera and vaccines of different kinds to the Civil Veterinary Department and that their cost is not charged to the latter. This arrangement understates the expenditure of the Civil Veterinary Department and the revenue of the Serum Institute. It is therefore suggested that the Institute sho ld get credit for the supplies it makes to the Civil Veterinary Department which department should include their cost in its budget.

I am, therefore, to request that your views on

on this suggestion may be kindly furnished as early as possible.

I have the honour to be,
Sir,
Your most obedient servant,

Secretary to Government,
Development Department.
